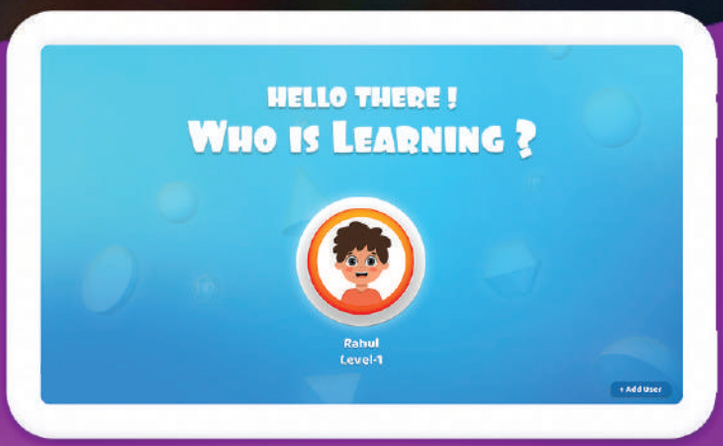
Real Life Learning possibility

"The only source of Knowledge is **EXPERIENCE"**

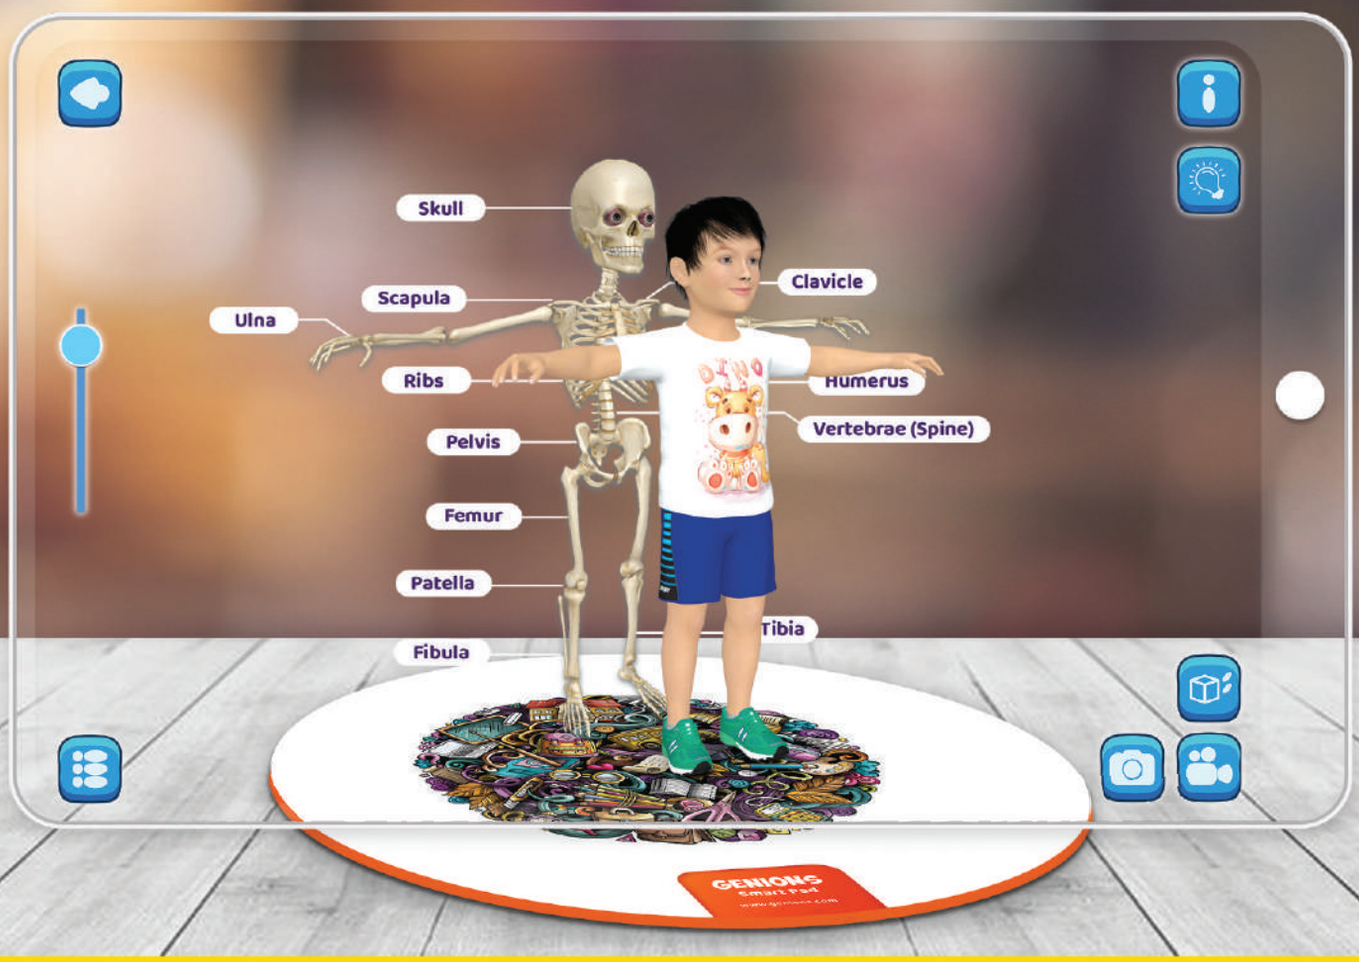
– Albert Einstein

Welcome to the GENIONS experiential augmented based learning Program. A unique program designed especially for 3years+ children to support strong early childhood learning process as per national early childhood care and education (ecce) curriculum framework & NEP 2020.



- 1st AR based Learning App in India and the Only e-learning program to support Offline viewing
- Genions Program helps to boost student retention rates by providing an interactive learning environment where they actively participate in the lesson
- Well researched curriculum is structured & mapped by expert EC content developers, educationist & psychologist
- With the kidSAFE certification, Genions has undergone rigorous safety and privacy assessments to ensure that it meets the highest standards of child safety.
- Multilanguage and kid's friendly Voice Over(VO) support. Presently the VO are in English. Soon we will be adding 12 Indian Regional languages & will be available in another 8 International languages.

Choose a topic from 300+ educational themes and our ever-growing list of 3D AR content, where the excitement and learning never end



Healthy Screen-time ✦ So Easy Kids can play solo ✦ No Ads or In-app Purchase ✦ Experience it Offline too!
